**EXCLUSIVE EASEMENT AGREEMENT**

**SULLIVAN REAL ESTATE GROUP, L.L.C., d/b/a SULLIVAN HOMES**, a Nebraska limited liability company, (hereinafter "Grantor"), and **PAUL J. WEISS** and **BONNIE LEA McCOY WEISS**, Husband and Wife, and as joint tenants, (hereinafter "Grantees"), desiring to create an exclusive easement and restrictive covenants on the terms and conditions as set forth herein, execute this Agreement this 28<sup>th</sup> day of February, 2000.

**PRELIMINARY RECITALS**

- A. Grantor is owner in fee simple of the real property described on Exhibit "A" attached hereto and made a part hereof, which property shall be platted as a subdivision named Charleston Woods. Lots 7 and 8, Charleston Woods, an addition in Omaha, Douglas County Nebraska, as will be surveyed, platted and recorded (hereinafter the "Servient Tenement") shall be surveyed by a certified land surveyor, and the legal metes and bounds description of such Lots and of the Easement Area (as defined below) prepared by such surveyor shall be attached to this Agreement as Exhibits "J1" and "J2";
- B. Grantees own in fee simple the real property identified as follows, which is adjacent to and abuts the Servient Tenement:  
Lot 14 Timberlane Estates, a subdivision in Omaha, Nebraska, as surveyed platted and recorded (hereinafter the "Dominant Tenement");
- C. To facilitate development on areas of the Servient Tenement to be owned by Grantor, and in consideration for valuable real property conveyed to Grantor by Grantees, Grantor desires to grant and convey to Grantees an exclusive easement, allowing Grantees to exclude all others including Grantor, its successors and assigns, and future owners of the

Servient Tenement or any portion thereof, from the easement area described on Exhibit "J2", attached hereto and made a part hereof (hereinafter, the "Easement Area").

- D. The Easement Area shall be used by Grantees, pursuant to the terms and conditions of this Agreement, as a buffer between the Dominant Tenement and development on the Servient Tenement; and
- E. Grantees, their successors and assigns, and future owners of the Dominant Tenement, shall have the exclusive right to use the Easement Area, subject to the limited rights of access described herein of Grantor, its successors and assigns, and future owners of the Servient Tenement, and further subject to the covenants contained herein.

**NOW, THEREFORE, THE PARTIES AGREE AS FOLLOWS:**

1. **Grant of Easement.** Grantor, on behalf of itself, its successors and assigns, and all future owners of the Servient Tenement does hereby grant, bargain, sell and convey to Grantees, their successors and assigns, and all future owners of the Dominant Tenement a perpetual easement in the Easement Area for the following uses:

- a. To plant trees, plant shrubs and plant other nursery stock in the Easement Area pursuant to the Tree Planting Plan marked as Exhibit "B" and attached hereto;
- b. To maintain, fertilize, trim (as necessary) and otherwise care for and maintain any trees, shrubs or other nursery stock in the Easement Area;
- c. To trim, maintain, plant, replant and weed any grass or lawn within the Easement Area as necessary and in compliance with reasonable gardening and landscape practice;
- d. To erect a fence (not to be placed any further west than the western boundary of the Easement Area) in conformity with the "Fence Specification Sheet", attached hereto as Exhibit "H" and incorporated herein, provided that Grantee initially and continuously thereafter complies with the requirements of paragraph 4 below; and

- e. To use and enjoy the demised premises, to the exclusion of all others including Grantor and future owners, in accordance with the restrictions contained in paragraph 2.

2. **Exclusive Easement.** The easement granted to Grantees by Grantor is intended to grant to Grantees, their successors and assigns, and all future owners of the Dominant Tenement, the exclusive right to use the Easement Area for the uses set forth above in paragraph 1, subject, however, to the restrictions in paragraph 4. Grantees, their successors and assigns, and all future owners of the Dominant Tenement, shall have the right to exclude Grantor, its successors and assigns, and future owners of the Servient Tenement from the Easement Area subject to the right of access for utilities as set forth in the next paragraph.

3. **Grantor's Right of Access to and use of the Easement Area.** Grantor, its successors and assigns, and all future owners of the Servient Tenement, shall have the right to use the Easement Area for the sole purpose of underground utility placement, repair, and maintenance of:

- a. power lines, cable television lines, natural gas lines, water, and telephone lines; and
- b. sanitary sewer and storm sewer; and
- c. such other underground utilities as may reasonably be required for the development of Grantor's property.

**Provided**, the placement, repair or maintenance of the aforementioned utilities shall not interfere with use of the Easement Area by Grantees, its successors and assigns, or any future owners of the Dominant Tenement; shall not destroy any existing trees, shrubs, or other natural habitat, and shall be placed under ground and not in view anywhere in the Easement Area. **Further provided**, Grantor, or any other party using the Easement Area for placement, repair or maintenance of utilities shall pay all costs of the placement, repair or maintenance and all costs

of returning the Easement Area to its original condition, including paying all costs to repair any damage to the Easement Area and any improvements made thereto.

**4. Covenants of Grantee.** Grantee, their successors and assigns, and all future owners of the Dominant Tenement shall be bound by the following restrictive covenants:

- a. Any fence constructed in the Easement Area shall not exceed the height of six feet, and shall be constructed in conformity with the specifications on Exhibit "H". Any fence shall be constructed of wood or wrought iron only: no chain link fence shall be installed.
- b. No ornamentation or lighting may be placed upon any fence including, but not limited to, Christmas tree lights or decorative lights;
- c. Grantee shall reasonably maintain and repair any fence constructed or placed in the Easement Area except for any damage to such fence caused by Grantor or Grantor's successor and assigns, or future owners of the Servient Tenement;
- d. Grantee shall maintain all trees and shrubs, including but not limited to, trimming, pruning and caring for all trees, shrubs and other nursery stock in the Easement Area;
- e. Grantee shall not construct or erect any dwelling, pavilion, garage, storage shed, playhouse, or other structure (except the possible fence contemplated above as a permitted use) within the Easement Area; and
- f. Grantee shall not construct, place or maintain a dog kennel, dog run, dog house or other animal shelter or confinement in the Easement Area.
- g. Grantee shall cooperate with Grantor in obtaining any permits necessary for the construction of the Fence.

**5. Covenants of Grantor.** Grantor, its successors and assigns, and all future owners of the Servient Tenement shall be bound by the following restrictive covenants:

- a. Grantor's use of the Easement Area shall be limited to the placement, repair and maintenance of underground utilities serving the Servient Tenement pursuant to paragraph 3 above;
- b. Grantor shall not construct any structure of any type in the Easement Area; and
- c. Grantor shall not interfere in any manner with the Grantees or their successors use of the Easement Area.
- d. Grantor shall cooperate with Grantee to obtain any permits necessary to construct the Fence.

6. **Subject to Existing Utility Easements.** The easement granted to Grantees hereunder is subject to two prior 10' utility easements of record, as shown on the attached Exhibit "C", and to a 16' foot wide Utility Easement through the Easement Area (in the approximate location as shown as shown on Exhibit "C") serving the subdivision known as Charleston Woods.

7. **Consideration.** Grantees have paid valuable consideration for the easement granted herein and for the exclusive use of the Easement Area, the sufficiency of which is hereby acknowledged by Grantor.

8. **Binding Effect.** The easement granted hereunder and the covenants contained herein shall run with the land, bind and inure to the benefit of, Grantees, their successors, assigns and all future owners of the Dominant Tenement, and shall run with the land, bind, and inure to the benefit of Grantor, its successors, assigns and all future owners of the Servient Tenement.

9. **Nature Preserve Agreement.** The parties acknowledge that they have entered into a long-term lease (herein the "Nature Preserve Agreement") whereby Grantor conveyed the Easement Area to Grantees for the same purposes and uses set forth in this Easement Agreement. Expiration of the Nature Preserve Agreement shall not affect any rights accruing to Grantees, their successors and assigns, or any future owners of the Dominant Tenement accruing under the terms of this Easement Agreement and shall not affect the duration of the grant of easement hereunder.

**10. Enforcement.** The terms and conditions of this Agreement, the grant of easement hereunder, and the covenants of both parties, may be enforced by an action at law or in equity filed in appropriate court by the parties to this Agreement, their successors and assigns, and by the future owners of the Dominant Tenement and the Servient Tenement. Any party bringing action to enforce this Agreement shall be indemnified by the party against whom enforcement is sought, for the reasonable costs of the legal action, including reasonable attorneys' fees, if the party bringing the action shall be successful in the enforcement action.

**12. Legal Description of the Easement Area.** Grantor and Grantee agree that the legal description of Lots 7 and 8 on Exhibit "J1" and the legal description of the Easement Area described on Exhibit "J2" are accurate and reflect the intent of the parties.

**13. Fence and Trees in Easement Area.** Grantee shall have the exclusive right to control the landscaping and placement of trees, shrubs and other plantings within the Easement Area. Grantor and Grantee agree that the costs for the fence set forth in paragraph 1. d above, and trees to be planted in the Easement Area as set forth in Exhibit "B", shall be equally split between Grantor and Grantee. **Provided however,** that Grantee shall not incur more than Three Thousand Five Hundred Dollars (\$3,500.00) for the fence (based upon Grantee's projected cost of \$28 per foot); and Grantor's total share of the costs for the trees shall not exceed Twenty Thousand Dollars (\$20,000.00). Furthermore, Grantor and Grantee acknowledge that they have entered into two (2) Easement Agreements, this Exclusive Easement Agreement and a Non-Exclusive Easement Agreement, and they agree that the above maximum costs are for the total of both Easement Agreements, and are not to be construed as specific to this Agreement only. Grantor shall construct the fence and upon completion shall invoice Grantee for their share. Grantee shall arrange for all trees and plantings, and upon completion shall invoice Grantor for its share.

**14. Restrictive Covenants.** Grantee acknowledges that Grantor may record restrictive covenants controlling the Servient Tenement. Grantor agrees that any such restrictive covenants so recorded shall not apply to or be binding upon Grantee.

IN WITNESS WHEREOF, Grantor has caused this instrument to be executed on its behalf by its duly authorized Manager Member; and Grantees have accepted the terms and conditions contained herein.

Dated 2-28, 2000.

**EXHIBIT "A"**

## Proposed

### Scope of Work,

Large trees shall be imported and planted within the boundaries of the No Build Area identified Nature Preserve as shown on lot plan.

### Specifications;

Plant materials shall be first grade nursery grow tree stock. All plant materials shall be from local growing grounds. All plant materials shall be inspected approved and tagged prior to importation to planting site. Tagging shall include the common name, genus name and species name. Tagging shall also include the caliper and height of each tree unit.

Planting material shall be delivered to the planting site by means appropriate for the size of the tree stock. Plant materials shall be planted using accepted and approved methods for the local. Additional clean soil shall be imported as necessary, to the planting site for use in the construction of water basins under the drip line of each tree. All planted trees shall have chipped and or shredded organic mulch material placed under and around them to provide for reduction of evaporation of moisture from the soil control of weeds and insulation from extreme temperature changes.

### Site conditions,

Weather is a prime consideration. Planting site work shall depend on weather and or soil conditions. Contractor shall be the sole judge of these conditions and shall not be held responsible for delays as a result of unfavorable conditions.

Access to planting site shall be approved and allowed by use of Pinehurst circle from 97 Avenue from Center Street. It shall be the responsibility of the owner or owner's representative to provide for raising or removal of the overhead cable TV, electric power and telephone lines as necessary to a minimum of fifteen feet above the street surface. Lot sites #1, #2, #3, and #4 and all street areas as shown on lot plan, shall be available without hindrance to the planting contractor. No other construction or any other contractors of any trade what so ever shall be on the lot sites identified above prior to or during the completion of all works by the planting contractor. Any delays as a result of the act or lack of action by the owner, owner's agent or representative or any other person, contractor, neighborhood or government organization claiming rights to stop or delay the progress of the planting and related works, shall be responsibility of the owner. Owner agrees to pay Stand-by rates to the contractor.

The No Build Area identified Nature Preserve as shown on lot plan shall be protected at it's boundaries by what ever means necessary from any and all effects of construction by others and shall be the responsibility of the owner. Any damage as a result of others shall not be covered under this agreement and shall void the guarantee.

Water for the purpose of irrigation shall be provided.

Access to the planting site shall be agreed to and allowed for the purpose of inspection and or maintenance of the new planting for one year after completion.

## Schedule A

### Planting Material

11 each 18 foot tall  
10 each 15 foot tall

“Scotch pine” (*Pinus sylvestris*) Rapid growth combined with a moderately dense crown. Young tree is straight in well-branched pyramid shape. Mature irregular, open, and picturesque with drooping branches. Height: 70 to 100 feet Spread: to 30 feet Needles 1 ½”- 3”, blue green color, stiff texture. Cones 2” gray to red brown.

4 each 15 foot tall

“ White pine” (*Pinus strobus*) Fast growth symmetrical cone shape with horizontal branches in regular whorls. Mature tree is broad, open, and irregular. Height: to 100 feet. Spread: to 40 feet Needles 2”-4” blue green, soft texture. Cones 3”- 8” slender, curved, light brown.

4 each 25 to 30 foot tall

“ Pin Oak” (*Quercus palustris*) Moderate to fast growth to 50’ to 80’ slender and pyramidal when young. Mature tree is open and round. Glossy dark green leaves, 3” to 6” long deeply cut into bristle-point lobes. Fall color can be yellow, red, and russet brown. Leaves may or may not fall off in winter.

3 each 12 foot tall

Amur Maple ( *Acer ginnala*) deciduous small tree. Can grow 20’ high with three-lobed, toothed leaves to 3” long. Striking red color in fall. Clusters of small yellow flowers in early spring

- ⊖ 18' Scotch pine
- 15' Scotch pine
- ⊗ 15' WHITE pine
- x 25' Pin Oak
- △ 12' Amur Maple
