We do further grant a perpetual easement to the Omaha Public Power District, and N.W. Bell Telephone Company, and any company which has been granted a franchise to provide a Cable Television System in the area to be subdivided; their successors and assigns, to erect, operate, maintain, repair and renew, poles, wires, cables, conduits and other related facilities, and to extend thereon wires or cables, for the carrying and transmission of electric current for light, heat and power and for transmission of signals and sounds of all kinds including signals provided by a cable television system and the reception on, over, through, under and across a five foot (5') wide strip of land abutting all front and side boundary lot lines; an eight foot (8') wide strip of land abutting the rear boundary lines of all interior lots; and a sixteen foot (16') wide strip of land abutting the rear boundary lines of all exterior lots. The term exterior lots is herein defined as those lots forming the outer perimeter of the above described addition. Said sixteen foot (16') wide easement will be reduced to an eight foot (8') wide strip when the adjacent land is surveyed, platted and recorded. No permanent buildings or retaining walls shall be placed in the said Easement ways, but the same may be used for gardens, shrubs, landscaping and other purposes that do not then or later interfere with the aforesaid uses or right herein granted.

In witness whereof, we have herunto set our hand this 25th day of October, 1984.
