The abstract was last certified to by Abstract Guaranty Company/Clear Title & Abstract, LLC consisting of 64 consecutively numbered entries and extending from June 3, 1959, at 8:00 o'clock A.M. and November 17, 1967, at 8:00 o'clock A.M. to May 2, 2016, at 8:00 o'clock A.M.

We have conducted our examination under the provisions of the Iowa Marketable Title Act. We find marketable title at the time of last certification of the abstract as shown by the abstract to be in RFO, L.L.C., a Kansas limited liability company, as to Parcel E described in the Warranty Deed filed in Book 2015 at Page 8342 shown at Entry #49 (part Lot 1 in Owen Parkway) to be replatted as Lot 3 in Owen Parkway Replat One and Parcel F described in the Warranty Deed filed in Book 2015 at Page 8340 shown at Entry #47 (part Lots 1 and 5 in Owen Parkway) to be replatted as Lot 4 in Owen Parkway Replat One; and in OMA LODGING, LLC, a Nebraska limited liability company as to the remaining property under examination, Parcel C as described in the Warranty Deed filed in Book 2015 at Page 8338 shown at Entry #45 (part Lots 1 and 5 in Owen Parkway), Parcel D as described in the Warranty Deed filed in Book 2015 at Page 8338 shown at Entry #45 (part Lot 5 in Owen Parkway), and all of Lots 2, 3 and 4 in Owen Parkway (also described as Parcels 1 and 2 in the Warranty Deed filed in Book 2015 at Page 5047 shown at Entry #37), to be replatted as Lots 1 and 2 in Owen Parkway Replat One; subject only to the following:

1. At Entry #63 the general taxes for the second half of 2014 are shown unpaid, first half and prior years are shown paid; for Parcel #754421352001 (Lot 5) and Parcel #754421352005 (Lot 1). The general taxes for the year 2014 and prior years are shown paid for parcels #754421352002 (Lot 4), #754421352003 (Lot 3) and #754421352004. Parcels #754421352008, #754421352009, #754421352010, and #754421352011 for the new lots to be platted as Owen Replat One are shown split and not assessed for 2014. We assume that the reference to the general taxes for 2014 is a reference to the fiscal year 2014-2015 taxes due and payable in fiscal 2015-2016.
2. At Entry #60 the abstractor makes the notation that it is no longer possible to certify to special assessments and/or unpaid fees for services for sewer systems, storm water drainage systems, sewage treatment, solid waste collection, water, and solid waste disposal which have been certified to the County Treasurer for collection unless those charges have been entered on the tax books. You are hereby advised that there may be additional fees due which have not been entered on the tax books.
3. At Entry #61 the abstractor makes the notation that they do not certify to assessments for buildings on leased land or assessments for machinery and equipment, as the County Treasurer indexes those assessments in such a manner as it is impossible to determine whether there are any which would attach to the real estate.
4. At Entry #59 a lien search was shown for OMA Lodging, LLC; Richard F. Owen Companies, LLC; RFO, LLC; Central Plains Steel Company; and Owen Industries, Inc.; for ten years last past to May 2, 2016, at 8:00 o'clock A.M.

5. At Entry #55 the abstractor makes a notation that the property under examination is controlled by the City of Carter Lake Zoning Ordinance. You should check with the Zoning Administrator to determine the present use and to determine if your intended use of the property qualifies under the existing zoning classification. We advise you that zoning and building codes may govern your ability to rebuild, remodel, add other buildings or change the use of the property under examination. You should satisfy yourself that your intended use and future needs of the property under examination qualify under the zoning and building codes and classifications.
6. At Entries #56, #57, and #58, the abstractor makes a notation that the property under examination is controlled by several ordinances adopted by Pottawattamie County. These ordinances control the zoning of the property, water wells on the property, hazardous waste that may be on the property, sanitary waste disposal and other areas. You should check with the Zoning Administrator to determine the present use of the property, as these ordinances may govern your ability to build, rebuild, remodel, add other buildings, drill wells, as well as other uses you may make of the property.
7. At Entry #29 is shown the plat Owen Parkway, filed July 16, 1984 in Book 85 at Page 1155, which reserves easements as shown on the plat and grants a perpetual easement to the Omaha Public Power District, Northwestern Bell Telephone Company and Peoples Natural Gas Company, their successors and assigns, for utilities over a five-foot-wide strip of land abutting all front and side boundary lot lines and an eight-foot-wide strip of land adjoining the rear boundary lines of all exterior lots, and prohibits the construction of permanent buildings, trees retaining walls or loose rock walls on said easement ways.
8. At Entry #30 is shown a Declaration of Restrictive Covenants, dated January 14, 1988, and filed March 18, 1988, in Book 88 at Page 19490, for all lots in Owen Parkway. At Entry #31 is shown a First Amendment to Declaration of Restrictive Covenants, dated April 21, 1988, and filed May 10, 1988, in Book 88 at Page 23819.

At Entry #44 is shown a Consent and Ratification of the Parcel Split filed July 6, 2015, in Book 2015 at Page 8507 by RFO L.L.C., f/k/a Richard F. Owen Properties, L.L.C.

23. At Entry #62 is shown a reference to the Mechanics' Notice and Lien Registry and a statement by the abstractor that a search as of May 2, 2016, was made of the Mechanics' Notice and Lien Registry maintained by the Iowa Secretary of State. Recent legislation which became effective January 1, 2013, changed the location for the filing of mechanics liens from the County Clerk's Office to a central filing location in the Secretary of State's Office. The search made by the abstractor found no mechanic's liens indexed against the real property under examination as of that date. No search was made for the filing of notices of commencement of work by general contractors and for the filing of pre lien notices by subcontractors (which filings do not create a lien against the real property under examination but merely preserve the right of those parties to file a lien in the future if they are not paid for their services).
24. Your attention is called to the fact that you should investigate certain matters not shown by the abstract, including the boundaries of the property, whether there is anyone other than record titleholders in possession of all or part of the property having any claims against the property, whether the property meets building codes and fire codes and has smoke detectors, whether there are public improvements in process or recently made in the vicinity for which special assessments might later be made, whether there has been any construction or improvement within the last 90 days for which Mechanic's Liens might later be filed, whether there are restrictions or controls by governmental authorities on usage of the property or on access to public streets or highways whether or not there is access to the property, and any rights acquired by adverse possession by fences, driveways, etc., which might be indicated upon inspection or survey of the premises.
25. You should determine whether any solid wastes, hazardous substances, pollutants, above or below ground storage tanks, drainage wells, water wells, landfill sites or other environmentally regulated conditions exist on the property. Such conditions are not ordinarily shown in the abstract, but they may result in injunctions, fines, required cleanup, or other remedial actions under federal, state or local laws. These laws may impose liens against the property and personal liability against the owner, even though the owner did nothing to create the condition, and acquired the property without knowing about it. You should carefully inspect the property or have an environmental assessment completed by a professional. If you are uncertain about what are hazardous materials you should contact the Environmental Protection Agency or the Iowa Department of Natural Resources.
26. At Entry #64 your attention is called to the fact that the abstractor's certificate specifically excludes a search of the records for bankruptcies since all bankruptcies are now filed in the Bankruptcy Clerk's Office. You should contact

the Bankruptcy Clerk to determine if any bankruptcies have been filed since a bankruptcy may affect the title to the real estate.

27. The abstract does not mention whether there are any garbage assessments or sewer and water bills remaining unpaid. We advise you that these bills become a lien upon the property when certified to the County Treasurer's Office. You should check with the City Clerk or water company to determine if there are any such assessments that are unpaid. Your check should be done as close to the time of closing your transaction as possible. If any of these items remain unpaid, then they should be paid prior to the time of closing or sufficient assets should be retained to insure that those items are in fact paid.
28. You are cautioned that Iowa has a fence law which determines your rights and obligations regarding the maintenance of boundary fences. You should determine by asking the neighbors if there are any fencing agreements that are not of record which affect the line and boundary fences. Your investigation should be done before closing the transaction and if there are any agreements, you should be made aware of the terms and conditions of those agreements and you should check with the seller to see if those are in fact the terms and conditions of the fencing agreements. It is always advisable to have any fencing agreement in written form and recorded.
29. If the property under examination contains a private water well, you should determine whether the water has been tested and whether the capacity of the well has been checked. The abstract does not disclose these items, however, you would be well advised to make sure that the water supply is capable of meeting your needs and that the water is potable.
30. You should determine the suitability of the investment or the suitability of the property for your proposed use. We make no recommendation, representation, or opinion concerning specific investment advice or for any suitability of the property for any particular use.
31. Please take notice that the abstract may not contain information concerning a Private Sewage Disposal System. Under Iowa law the deed conveying the property to the purchaser must be accompanied by a Ground Water Hazard Statement. Part of said statement deals with the sewage disposal system, if any, located on the property. If a private sewage disposal system is located on the property it may need to be inspected prior to the transfer of title to the property. If the system fails the inspection the transfer of the property will be stopped until the sewage system is replaced or repaired. The status of said sewage system will only be shown in the abstract that we are examining if a previous conveyance of the property included a recorded statement regarding the Private Sewage Disposal System. You are cautioned to ask the seller for a draft of the Ground
