21. The Subdivider agrees to retain ownership of and the right of entry to the outlots in order to perform the above-described maintenance of the outlots and private improvements on a permanent and continuous basis. However, Subdivider may be relieved and discharged of such maintenance obligations upon creating in writing a permanent and continuous association of property owners who would be responsible for said permanent and continuous maintenance subject to the following conditions:

- (a) Subdivider shall not be relieved of Subdivider's maintenance obligation for each specific private improvement until a registered professional engineer or nurseryman who supervised the installation of said private improvement has certified to the City that the improvement has been installed in accordance with approved plans; and
- (b) The maintenance agreements are incorporated into covenants and restrictions in deeds to the subdivided property and the documents creating the association and the restrictive covenants have been reviewed and approved by the City Attorney and filed on record with the Register of Deeds.
