Nebraska's online access to the JUSTICE system includes a complete, current listing of cases publicly available in the court system. However, case information may not be available because of state law, court records retention schedules, or a Supreme Court Rule. For example, sealed records will not be publicly available through the online JUSTICE system.

NOTICE: A juvenile adjudication under the Nebraska Juvenile Code is not a conviction and does not disqualify the juvenile from future civil or military service.  
*See 43-280 Neb. Rev. Stat.*

The JUSTICE case search system provides access to cases filed in all of Nebraska's county, district and juvenile courts. Name searches allow you to enter general case information criteria such as party name, case type, court, year, etc. and generate a list of case captions. These general searches results are free of charge. If you choose to view the details of a case including status, financial activity, documents filed, etc. a \$1.00 charge will be placed on your Nebraska.gov account. You may also  Search by Case Number.   
Filed document images dated April 16, 2008 or later are available to view or download in PDF format at no additional charge. Image availability may take up to 24 hours after filing of court documents.

 Information retrieved may be up to 24 hours old.

# Sanctions List Search

This Sanctions List Search application ("Sanctions List Search") is designed to facilitate the use of the Specially Designated Nationals and Blocked Persons List ("SDN List") and all other sanctions lists administered by OFAC, including the Foreign Sanctions Evaders List, the List of Persons Identified as Blocked Solely Pursuant to E.O. 13599, the Non-SDN Iran Sanctions Act List, the Part 561 list, the Sectoral Sanctions Identifications List and the Non-SDN Palestinian Legislative Council List. Given the number of lists that now reside in the Sanctions List Search tool, it is strongly recommended that users pay close attention to the program codes associated with each returned record. These program codes indicate how a true hit on a returned value should be treated. The Sanctions List Search tool uses approximate string matching to identify possible matches between word or character strings as entered into Sanctions List Search, and any name or name component as it appears on the SDN List and/or the various other sanctions lists. Sanctions List Search has a slider-bar that may be used to set a threshold (i.e., a confidence rating) for the closeness of any potential match returned as a result of a user's search. Sanctions List Search will detect certain misspellings or other incorrectly entered text, and will return near, or proximate, matches, based on the confidence rating set by the user via the slider-bar. OFAC does not provide recommendations with regard to the appropriateness of any specific confidence rating. Sanctions List Search is one tool offered to assist users in utilizing the SDN List and/or the various other sanctions lists; use of Sanctions List Search is not a substitute for undertaking appropriate due diligence. The use of Sanctions List Search does not limit any criminal or civil liability for any act undertaken as a result of, or in reliance on, such use.
