the present owner(s) of land adjacent to the above referenced highway, (hereinafter referred to as the Owners), and the Iowa Department of Transportation, acting for the State of Iowa (hereinafter referred to as the Department).

A. Identification

The Owners own land generally located in 1/4 1/4 Sec. (or lot) NW 1/4 of Sec. (or block) 35 and parts of 1/4 1/4 Sec. (or lot) _____ of Sec. (or Blk.) _____ in Twp. 80, Rge. 24, or (Sub Div.) (in the City of) Ankeny, County of Polk, State of Iowa more particularly to which the State of Iowa has previously acquired access rights by deed (or condemnation) from and recorded in Book (Vol.) 4938, Page 985 _____ (Instrument No.) _____ in the Office of the Polk County Recorder

B. Establishment of a Special Access Connection (use when establishing a new access location)

The said Owners have title to property as described above and more particularly to which the Department has acquired access rights and now request authorization to establish an access opposite 0.20+/- (Milepost#) or 342+14 (station) on the south side of the Primary Highway. The access requested shall be constructed in compliance with Department Standards adopted for a Type A and shall be constructed 50 (ft.) in width and and with 35 ft. radius returns or 2:1 tapers as noted in the attached exhibits. In the establishment of this access location, the Owners agree that the following existing entrance(s) will be permanently removed or extinguished including all rights as previously reserved.

Station	Side	Type
340+50	south	C

(Applicant, Notary, City or County, & DOT Signatures on next page)

Applicant Signature and Agreement

We, the undersigned, are the owner, or owners, of record, or the legal and duly authorized representative of the owner, of the property abutting the Primary Road between 0.02+/- (Milepost #) or 330+58 (station) and 0.54+/- (Milepost #) or 360+33 (station) on the south side and agree that we shall save the State and the Iowa Department of Transportation harmless of any damage or losses for personal injury or property damage that may be sustained by any person or persons, on account of any activity undertaken pursuant to this agreement and the conditions and requirements of this agreement as are stated on this application and attachments thereto.

DEPARTMENT OF TRANSPORTATION ACTION Application Approved Application Denied

On behalf of the Department of Transportation, Highway Division, the above action has been taken on this application this 19TH day of AUGUST A.D. 2005 by:

Authorized Highway Division Representative (Handwritten)	Title
<i>[Signature]</i>	ACCESS POLICY ADMINISTRATOR
Authorized Highway Division Representative (Typed or Printed)	
DAVID WIDICK	

- C. General**
1. The Department and the Owners agree that the entrance (right of access) desired by said Owners as noted in Section B (on page 1) is an additional access location authorized to the property ownership. In all other respects, said deed (or condemnation) remains as before, and the rights acquire thereby, with these changes only, remain in the State of Iowa, as against the said Owners, their heirs, assigns, and successors in interest.
 2. Words and phrases herein, including acknowledgment hereof, shall be construed as in the singular or plural, and as masculine, feminine, or neuter gender according to the context.
 3. A copy of the approved application shall be available on the job site at all times for examination by Department officials.
 4. Subject to the approval of this application and upon completion of the constructing of the entrance in compliance with the terms agreed upon in this document and attachment, no changes in the entrance or its location shall be undertaken without the prior written approval of the Department.

(Agreements continued on next page)

C. General (continued from previous page)

5. The owner shall be responsible for all future maintenance costs associated with maintaining the access in a safe state of repair from the outer shoulder line of the primary highway to the right-of-way line.
 - a. If a drainage structure is required as a part of the permit application, the Department shall be responsible for maintaining that portion of the drainage structure located within the primary highway rights-of-way.
 - b. Nothing in this stipulation, however, shall preclude the Department from entering upon said entrance on highway right-of-way and performing necessary maintenance for the protection of the highway or highway user.
6. In the future, should this entrance generate sufficient traffic to warrant a need for additional traffic control upon the primary road system, costs for these improvements shall be the responsibility of the Owner and shall be constructed in accordance with Department standards. These may include, but would not necessarily be limited to, the constructing of turn lanes and/or signalization.
7. That all provisions herein relating to the construction, repair, or maintenance of the access shall be binding on all successors or assigns of the Owner.

D. Liability

1. The Owner(s) shall indemnify and save harmless the State of Iowa, its agencies and employees, from any and all causes of action, suits at law or in equity, for losses, damages, claims, or demands, and from any and all liability and expense of whatsoever nature, arising out of or in connection with Owner's use or occupancy of the public highway.
2. If the Owner(s) should fail to comply with any of the conditions and requirements of this agreement, the Department may terminate it, whereupon the Owner(s) shall immediately remove any construction undertaken pursuant to this agreement and restore the access(es) previously existing, and any rights granted the Owner(s) by this agreement shall end.
 - a. If the Owner(s) fails to remove the construction or fails to conform to the specifications and stipulations of this application, the Department may enter and remove the non-conforming work or make the necessary changes and charge the costs against the owner, including court action if necessary.

E. Notification

1. Before beginning any work in the highway right-of-way, it is the responsibility of the Owner(s) to:
 - a. Contact utility companies which may be located in the area of the proposed work. Contact should be made by calling Iowa One Call at 1-800-292-8989, a minimum of 48 hours in advance of starting construction.
 - b. If the work requested in this application should cause a need to relocate or modify an existing utility, any cost associated shall be as negotiated between the applicant and the utility owner.
 - c. Notice of the construction start date is to be given 48 hours in advance of actual construction to the following:

First Name	Last Name	Phone Number
Ed	Mahoney	(515) 265-1560
Street Address	City/Town	State
1530 N.E. 53rd Avenue	Des Moines	IA
		ZIP Code
		50265

F. Construction and Maintenance

1. That all provisions herein relating to the construction, repair, or maintenance of the access shall be binding on all successors or assigns of the Owner.
2. Unless specifically noted in this application, all work performed within the right-of-way shall be restricted to a time frame of 30 minutes after sunrise to 30 minutes before sunset.
3. The access, including drainage structure, grading, and surfacing, and entrance configuration shall be constructed by the Owner at the Owner's expense, in accordance with the exhibit and attachments hereto, and in conformity with the standard specifications of the Department of Transportation.
4. That the construction, future repair, or maintenance of said entrance shall be carried on in such a way as not to interfere with, or interrupt traffic on said highway, and the Owner shall take all reasonable precautions to protect and safeguard the lives and property of any person or persons, on account of such construction, repair, or maintenance operation.
5. That no filling will be permitted in the right-of-way primary road No. 160 other than that necessary to construct the proposed entrance or as specifically stated herein.
6. In a rural-designed area to prevent water draining on the pavement or traveled way of the primary highway, the finished surface elevation of the driveway over the pipe or place whether the pipe would normally be placed shall be 6 inches lower than the highway shoulder elevation.
 - a. If required, the culvert pipe under the entrance shall be inches in diameter and feet in length as shown on the attached sketch and of a quality complying with Sections 2422, 4141, 4145, and 4146 of the Department's Standard and Specifications Series 2001, or subsequent revision. The pipe shall be installed at the elevation specified by the Department's engineer.

In an urban-designed area, where drainage is carried along an existing curb, the entrance shall be constructed with a rise in elevation of 6 to 9 inches from the street gutter at the entrance to a point 6 feet behind the gutter. This will prevent run-off from spilling onto private property.
7. Side slope of the requested entrance shall be constructed at a minimum of 10:1 slope where no culvert is required and 8:1 slope when a culvert is required.

G. Special Requirements or Additional Stipulations

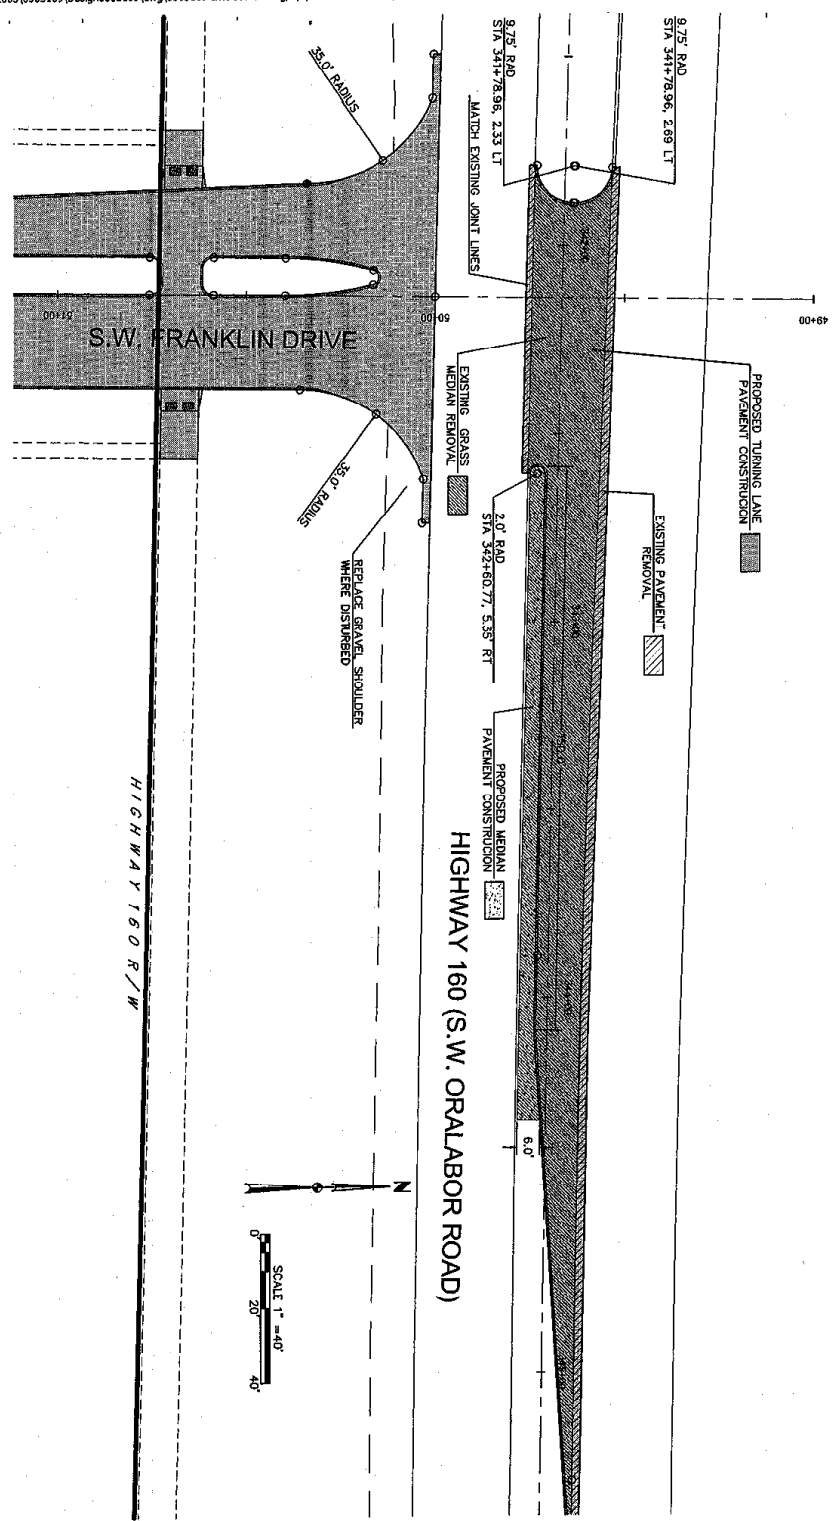

The following special requirements or additional stipulations shall apply to this permit:

Standard Road Plans RS-62 and RS-63A, as applicable, shall be used for traffic control with adjustments as necessary for field conditions.
