**AMENDED AND RESTATED AGREEMENT  
REGARDING THE ANNEXATION OF FIRETHORN  
(CORRECTED)**

THIS AMENDED AND RESTATED AGREEMENT REGARDING THE ANNEXATION OF FIRETHORN (CORRECTED) ("Corrected Agreement") is made and entered into the 5<sup>th</sup> day of Oct, 2015, by and between the CITY OF LINCOLN, NEBRASKA, a municipal corporation (the "City"); FIRETHORN GOLF COMPANY, L.L.C., a Nebraska limited liability company ("FGC"); FT DEVELOPMENT II, INC., a Nebraska Corporation ("Developer"), and FIRETHORN UTILITY SERVICE CO., a Nebraska corporation ("FUSC"). FGC, Developer and FUSC are hereinafter collectively referred to as "Firethorn." This Corrected Agreement corrects, amends, and restates in its entirety the Amended and Restated Agreement Regarding the Annexation of Firethorn dated April 13, 2015 ("A&R Annexation Agreement") which amended and restated in its entirety the Agreement Regarding the Annexation of Firethorn dated June 13, 2007 ("Original Annexation Agreement"), which is filed of record with the Lancaster County Register of Deeds office as Instrument No. 2007037420.

**RECITALS**

A. In 2007, the City, pursuant to and in accordance with the Original Annexation Agreement, annexed at Firethorn's request that portion of the area included within the Firethorn Community Unit Plan - Special Permit No. 872F ("Firethorn CUP") legally described on Attachment A and incorporated herein by this reference ("Original Property"). In 2015, the City, pursuant to and in accordance with the A&R Annexation Agreement, annexed additional area included within the Firethorn CUP, which area is described on Attachment A-1 and incorporated herein by this reference ("Additional Property"). The Original Property and Additional Property are hereinafter referred to collectively as the "Property."

B. In June, 2009, the City adopted an Amendment to Annexation Agreement ("Amendment") amending the Original Annexation Agreement. Some of the terms of the Amendment, including amendments to the water system and private water distribution system in Section 5(a) and Section 5(d) of the Original Annexation Agreement respectively, inadvertently did not get included in the A&R Annexation Agreement. The parties desire to correct that oversight by including such provisions in this Corrected Agreement so that the Corrected Agreement represents the sum total of the agreements reached between the parties.

C. It will be necessary to obtain approval from Rural Water District No. 1, Lancaster County, Nebraska, hereinafter "District No. 1" in order for the City of furnish water service to that portion of the Property located within the boundaries of District No. 1. The City is willing to annex the Property as requested by Firethorn provided Firethorn agrees to pay all of the cost needed to obtain approval from District No. 1 for the City to furnish water for that portion of the Property located within the boundaries of District No. 1.

D. The Property is located within a rural fire protection district. *Neb. Rev. Stat. §35-514*, dealing with the City's annexation of territory from rural fire protection districts, provides in part that: "(7) Areas duly incorporated within the boundaries of a municipality shall be

automatically annexed from the boundaries of the district notwithstanding the provisions of §31-766 and shall not be subject to further tax levy or other charges by the district, except that before the annexation is complete, the municipality shall assume and pay that portion of all outstanding obligations of the district which would otherwise constitute an obligation of the area annexed or incorporated.” The City is willing to annex the Property as requested by Firethorn provided Firethorn agrees to pay all costs needed for the City to assume and pay that portion of all outstanding obligations of the district which would otherwise constitute an obligation of the Property being annexed.

NOW, THEREFORE, in consideration of the mutual covenants herein, the parties agree as follows:

1. **Annexation by City.** The parties agree that the City has annexed the Property on the terms and conditions set forth in the Original Annexation Agreement and the A&R Annexation Agreement.

2. **City Approvals.** The parties agree that the City Approvals required under the Original Annexation Agreement and the A&R Annexation Agreement have been approved by the City. Specifically, in 2007, the City approved Change of Zone No. 06077 to rezone the Original Property from AG-R Agricultural Residential District to R-1 Residential District and the Firethorn CUP. And in 2015, the City approved Change of Zone No. 15005 to rezone the Additional Property from AGR to R-1 and O-3, and from O-3 to R-1, the Amendment to Firethorn CUP - Special Permit No. 872H, and Use Permit No. 15005 (“Use Permit”).

3. **Records.** Firethorn has provided to the City all of its drawings and records related to its infrastructure improvements (water, storm sewer, sanitary sewer, all meters and roads) in their current condition, without warranty. Firethorn shall have no obligation to provide any new or additional drawings or records.

4. **Sanitary Sewer.**

(a) **Private Sanitary Sewer System.** Firethorn will maintain the existing private sanitary sewer system that currently sewers the Property. The system previously utilized a pump station in the northeast corner of the Property (“Original Pump Station”) to pump the wastewater to a constructed wetland treatment system. Firethorn at its own cost and expense properly abandoned the constructed wetland treatment system and constructed, generally as shown on Attachment C attached hereto, a force main from the Original Pump Station approximately 4,700 feet southwest to Manhole E1W-23 at 85<sup>th</sup> Street and Pioneers Boulevard. Firethorn shall be permitted to construct, maintain and repair such force main in the City right-of-way in Pioneers Boulevard. No additional fees or permits shall be required by the City in connection with the construction of such force main. Firethorn will remain responsible for all maintenance on the private sanitary sewer system.

(b) **Waste Water Flow.** The City will accept the existing waste water flow from Firethorn at Manhole E1W-23. Firethorn, at its own cost and expense through the City’s Executive Order construction process, replaced a section of undersized eight-inch sanitary sewer main in

Pioneers Boulevard, from Manhole D1E-297 to D1E-443, approximately 1240 feet, with a ten-inch diameter pipe. The City is responsible for all maintenance and repairs on City's sanitary system starting at Manhole E1W-23. The maximum allowable development for the Property without additional infrastructure upsizing is five hundred forty five (545) dwelling units or equivalent dwelling units which are apportioned as follows:

(i) 395 dwelling units within the Firethorn CUP including all existing dwelling units, clubhouse facilities for the original 18 hole golf course and recreational facilities within the Additional Property, and

(ii) 150 dwelling units within the Use Permit. For purposes of this Agreement, 1,000 square feet of office uses is equivalent to 2/3 dwelling unit (e.g. 150 dwelling units = 225,000 square feet of office uses).

(c) Pump Station. The Original Pump Station has been replaced by a new pump station that is owned and shall be maintained and operated by FUSC ("New Pump Station"). FUSC will remove the New Pump Station when construction of the public trunk sewer to serve the Property is completed, subject to subsection (d) below.

(d) Transfer of Ownership. Upon completion of the public gravity trunk sewer to serve the Property, Firethorn shall have the right, but not the obligation, to convey the internal sewer mains throughout the Property to the City and the City agrees to accept ownership of the internal sewer mains and incorporate them into the City's Wastewater System. Notwithstanding the above, Firethorn agrees that the City may inspect the mains prior to accepting ownership thereof. Firethorn further agrees to repair any deficiencies noted at no cost to the City, but Firethorn shall not be required to cause the system to comply with current City standards. Firethorn further agrees to convey or grant to the City thirty-foot wide permanent easements in order to maintain, repair, replace, or reconstruct the internal sewer mains located on the Property. Firethorn further agrees to convey at no cost any other permanent and temporary easements necessary for the City to install the permanent gravity sewers to serve Firethorn and/or adjacent properties, at such locations as are reflected on the Firethorn 24<sup>th</sup> Addition Preliminary Plat or otherwise acceptable to Firethorn. Firethorn will not be responsible for the installation of such future internal sewer mains reflected on the plat necessary to connect the real property located upstream on the south side of Pioneers boulevard to the trunk sewer main to be constructed in South 98<sup>th</sup> Street, except that Firethorn shall be responsible for the cost to extend the Firethorn system from the New Pump Station to such trunk sewer main. The City reserves the right to tie onto the Firethorn system upon completion of the public gravity trunk sewer main to serve the Property and the real property located upstream on the south side of Pioneers Boulevard.

## 5. Water.

(a) Water System. Firethorn has constructed an entirely new water distribution system to serve the Property generally as shown on Attachment B attached hereto, including a 16-inch water main in Pioneers Boulevard from 85<sup>th</sup> Street to 95<sup>th</sup> Street adequate to loop all parts of the system serving the Property. Attachment B reflects (i) the new water mains constructed (Attachment B-1), (ii) the existing water mains to remain (Attachment B-2), and (iii) the existing

water mains to be abandoned (Attachment B-3). FUSC has transferred ownership thereof to the City. The City has accepted ownership of the existing water mains to remain as shown on Attachment B-2 and incorporated such mains into the City's water distribution system. The City is permitting branched service lines for Lots 9 through 24, Block 2, Firethorn 2<sup>nd</sup> Addition and Lots 5, 6 and 7, Block 1, Firethorn 15<sup>th</sup> Addition. Notwithstanding the foregoing, all service connections to the water main which did not conform to City standards were replaced by the homeowner. The design, including a street grade study in Pioneers Boulevard to determine an acceptable location for installation of the main with respect to future street alignment and grades, was performed under the City's Executive Order construction process. All costs to construct the new water distribution system and connect the Property to the City water system were borne by Firethorn, except that the City subsidized Firethorn for the cost of the 12-inch water main in excess of the equivalent cost of an 8-inch water main (except for the City's fixed fee for engineering services). The City has also reimbursed Firethorn for the cost of the street grade study and the 16-inch water main in excess of the equivalent cost of an 8-inch water main from Directed Water Distribution and/or Arterial Street Impact Fees, as appropriate.

(b) Water Meters. Firethorn understands and acknowledges that each person connecting to the City's water system is responsible to obtain a tap permit and pay for the water meter, the new supply pipe, stop box, service pipe and meter valves.

(c) Water Pressure. Firethorn will provide reasonable notice to the lot owners in advance of any changes which may increase pressure and the possible consequences to residential appliances, plumbing and systems.

(d) Private Water Distribution System. FUSC may convert the existing heat pump return main system into a private water distribution system owned, maintained and operated by FUSC, but only for irrigation (including the use thereof as a supply source for the irrigation pond located on the golf course), restrooms, swimming pool and heat pump use; provided, however, that the use of such private water distribution system for residential purposes shall be discontinued not later than October 1, 2029. Every property connected to the private water system for either irrigation or heat pump purposes shall have a backflow preventer installed behind the new water meter at no cost to the City. A backflow preventer shall also be required for any property served by a private well, in addition to the City's public water system. After the use of the private system for residential purposes is discontinued, Firethorn shall be permitted to continue to use the private water distribution system for irrigation of the golf course (including as a supply source for the irrigation pond), restrooms, swimming pool, and heat pump use associated with the clubhouse. Until such time as the use of the private system for residential purposes is discontinued, Firethorn shall indemnify and hold the City harmless from and against all claims, liabilities, and expenses relating to accidents, injuries, loss or damage to any person or property arising from or in any manner relating to the use of such private water distribution system, except as may result from the negligence or intentional misconduct of the City.

(e) Easements. Required easements for construction of the public water distribution system to serve the Property as reflected on Attachments B-1 and B-2 have been dedicated by Firethorn to the City without cost.

(f) Water Line in Van Dorn. The parties agree that a 16-inch water main in Van Dorn from S. 84<sup>th</sup> Street to S. 91<sup>st</sup> Street (“Van Dorn Water Line”) is necessary to serve the Additional Property and to promote the general health and welfare of the City. The City shall design and construct, at its cost, the Van Dorn Water Line in 2015. The City has designated funding for said water line from prior appropriations in the Capital Improvement Program.

**6. Streets and Other Improvements.**

(a) Roads. FUSC will continue to own and maintain the private roadway system located upon the Property. Firethorn has constructed, at its own cost and expense, through the City’s executive order construction process, asphalt paved left-turn lanes at all existing intersections with Pioneers Boulevard and the existing intersection at S. 91<sup>st</sup> Street and Van Dorn Street.

(b) 98<sup>th</sup> Street. 98<sup>th</sup> Street may remain as a gravel road until such time as the County and/or the City paves the roadway.

(c) 88<sup>th</sup> Street. The City shall consent to and/or approve the vacation of the North 530’ of South 88<sup>th</sup> Street by Lancaster County, subject to a reservation of utility easements therein.

(d) Access to Van Dorn. Van Dorn Street from S. 84<sup>th</sup> Street to S. 91<sup>st</sup> Street is currently classified as an urban rural minor arterial and is constructed as a two lane rural cross section. No improvements to the roadway are shown in the Lincoln City – Lancaster County Comprehensive Plan during the 25-year planning period. The City approves the full and limited access points to Van Dorn Street from the Additional Property that are shown and identified on Attachment D (each a “New Access Point”, and collectively “New Access Points”). The west New Access Point shall be a permanent full turn movement access point to Van Dorn Street with a median opening in the future. The East New Access Point shall be a full turn movement access point until such time as Van Dorn Street is improved to a four lane cross section with median. Notwithstanding the foregoing, nothing herein shall prohibit the City from constructing a round-a-bout at one or both of the New Access Points in the future. Firethorn shall, through the City Executive Order process, design and construct temporary right and left turn lanes at such time a private roadway connection is made to Van Dorn Street at each New Access Point (“Van Dorn Turn Lanes”). The parties acknowledge and agree that a portion of the grading and any Section 404 permitting required for the construction of the Van Dorn Turn Lanes that conforms with the City’s grade study for Van Dorn Street are Arterial Street Impact Fee Facility Improvements. The City does not currently have funding to pay for Arterial Street Impact Fee Facility Improvements to Van Dorn Street. Consequently, the City agrees to segregate arterial street impact fees collected by the City from development of the Additional Property (“Development Impact Fees”) and utilize said Development Impact Fees to fund the Arterial Street Impact Fee Facility Improvements associated with the Van Dorn Turn Lanes. In the event Development Impact Fees are not available to fund the Arterial Street Impact Fee Facility Improvements at the time they are constructed by Firethorn, Firethorn shall fund said Arterial Street Impact Fee Facility Improvements and said costs shall be reimbursed to Firethorn by the City when Development Impact Fees become available. If required, the Arterial Street Impact Fee Facility Improvements shall be publicly bid

and awarded as provided by law. Firethorn shall prepare and process, and the City agrees to sign, as permittee, an application for the Section 404 permit required for construction of the Arterial Street Impact Fee Facility Improvements associated with the Van Dorn Turn Lanes ("Van Dorn 404 Permit"). Firethorn will submit the Van Dorn 404 Permit application to the Corps of Engineers for review concurrently with its submittal of applications for the Section 404 permits required for development of the Property.

(e) Driveway Access. The City also approves driveway access from the Property to Pioneers Boulevard and 98<sup>th</sup> Street at the locations shown on Attachment E.

7. Parks. Firethorn shall have the right, but not the obligation, to donate an approximately one-fourth (1/4) acre of land measuring at least 100 feet by 100 feet as a neighborhood park in a location and configuration satisfactory to the Parks and Recreation Department. Firethorn further agrees to permanently and continuously be responsible for mowing the grass; provided that such obligation may be transferred to a permanent lawfully created association of property owners who agree to be responsible for such mowing. Neighborhood Park & Trail Impact Fees shall not be due with respect to the existing residences at Firethorn and shall only be collected from the construction of new residences on the Property. The City agrees to accept the donation and further agrees that any Neighborhood Park & Trail Impact Fees collected from development on the Property will be spent on equipping the park.

8. Intentionally omitted.

9. District No. 1. Firethorn understands and acknowledges that the City may not furnish water to serve that portion of the Property lying within the boundaries of District No. 1 without the consent and approval of District No. 1. Firethorn desires to be connected to the City's public water system and therefore agrees to pay all the cost needed to obtain District No. 1's approval for the City to furnish water to the Property lying within the boundaries of District No. 1.

10. Contribution for Rural Fire District. Firethorn understands and acknowledges that the City may not annex the Property lying within the boundaries of the Southeast Rural Fire District except by the City assuming and paying that portion of all outstanding obligations of the District which would otherwise constitute an obligation of the Property being annexed. Firethorn desires to be annexed by the City and therefore agrees to pay the amount which must be paid to the Southeast Rural Fire Protection District in order for the annexation to be complete. The parties anticipate that no payment shall be required.

11. Future Cost Responsibilities. Firethorn understands and acknowledges that the proposed development of the Property, including the connection to the City water and wastewater system shall be subject to the payment of impact fees. Specifically, new lots developed within the Property being annexed will pay Arterial Street Impact Fees based upon the Impact Fee Schedule in effect on the date the Property is developed. Existing residences located within the Original Property were required to pay Water Distribution, Water Supply, and Wastewater Impact Fees based upon the Impact Fee Schedules in effect on the date of connection. Notwithstanding the above, FGC paid Water Distribution and Water System Impact Fees for the 129 existing residences

within the Original Property based on a one inch (1") water meter and any connections of the golf course clubhouse and other facilities to the City water and wastewater system. The impact fee was based upon the Impact Fee Schedule in effect on the date of connection to the City water system. FGC also paid the Wastewater Impact Fee for the existing 129 residences within the Original Property based on a one inch (1") water meter. The impact fee was based upon the Impact Fee Schedule in effect on the date the individual residences were connected to the City water system. Residents of the area being annexed will pay the standard City water and sewer rates upon connection. In the event any of the owners of existing 129 residences elect to install a water meter larger than one inch (1"), such owner shall be responsible for the additional Water Distribution, Water System and Wastewater Impact Fees due as a result of any increase in the size of the water meter.

12. **Conservation Easements.** With the annexation of the Original Property, the City executed Amendments to the Declarations of Protective Covenants, Conditions and Restrictions Pursuant to the Conservation and Preservation Easement Act that were recorded in the Office of the Register of Deeds of Lancaster County, Nebraska as Instrument Nos. 2007054080 and 2007054081, amending the Declarations of Protective Covenants, Conditions and Restrictions Pursuant to the Conservation and Preservation Easement Act that were recorded in the Office of the Register of Deeds of Lancaster County, Nebraska as Instrument Nos. 98-049864 and 98-049865 ("Conservation Easements"). With the annexation of the Additional Property, the City executed the Second Amendment to Declaration of Protective Covenants, Conditions and Restrictions Pursuant to the Conservation and Preservation Easement Act that was recorded in the Office of the Register of Deeds of Lancaster County, Nebraska as Instrument No. 2015039649, further amending the Conservation Easements to release the remaining portion of Outlot A, Firethorn 17th Addition, Lincoln, Lancaster County, Nebraska, now known as a portion of Lot 3 and a portion of Outlots "A" and "B", all in Firethorn 41st Addition, from the covenants, conditions, and restrictions in said Conservation Easements.

13. **Binding Effect.** This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, devisees, personal representatives, successors and assigns and shall inure to and run with the Property.

14. **Amendments.** This Agreement may only be amended or modified in writing signed by the parties to this Agreement.

15. **Further Assurances.** Each party will use its best and reasonable efforts to successfully carry out and complete each task, covenant, and obligation as stated herein. Each of the parties shall cooperate in good faith with the other and shall do any and all acts and execute, acknowledge, and deliver any and all documents so requested in order to satisfy the conditions set forth herein and carry out the intent and purposes of this Agreement.

16. **Governing Law.** All aspects of this Agreement shall be governed by the laws of the State of Nebraska. The invalidity of any portion of this Agreement shall not invalidate the remaining provisions.

17. **Interpretations.** Any uncertainty or ambiguity existing herein shall not be interpreted against either party because such party prepared any portion of this Agreement, but shall be interpreted according the application of rules of interpretation of contracts generally.

18. **Construction.** Whenever used herein, including acknowledgements, the singular shall be construed to include the plural, the plural the singular, and the use of any gender shall be construed to include and be applicable to all genders as the context shall warrant.

19. **Relationship of Parties.** Neither the method of computation of funding or any other provisions contained in this Agreement or any acts of any party shall be deemed or construed by the City, Firethorn, or by any third person to create the relationship of partnership or of joint venture or of any association between the parties other than the contractual relationship stated in this Agreement.

20. **Assignment.** In the case of the assignment of this Agreement by any of the parties, prompt written notice shall be given to the other parties who shall at the time of such notice be furnished with a duplicate of such assignment by such assignor. Any such assignment shall not terminate the liability of the assignor to perform its obligations hereunder, unless a specific release in writing is given and signed by the other parties to this Agreement.

21. **Default.** Firethorn and City agree that the annexation promotes the public health, safety, and welfare so long as Firethorn fulfills all of the conditions and responsibilities set forth in this Agreement. In the event Firethorn defaults in fulfilling any of its covenants and responsibilities as set forth in this Agreement, the City may take such remedies, legal or equitable, which the City may have to enforce this Agreement or to obtain damages for its breach.

22. **Definitions.** For purposes of this Agreement, the words and phrases “cost” or “entire cost” of a type of improvement shall be deemed to include all design and engineering fees, testing expenses, construction costs, publication costs, financing costs, and related miscellaneous costs. For the purposes of this Agreement the words and phrases “building permit”, “development”, “Impact Fee Facility”, “Impact Fee Facility Improvement”, and “site-related improvements” shall have the same meaning as provided for said words and phrases in the Impact Fee Ordinance.

23. **Engineering Services.** Uniform procedure for the selection of professional consultants set forth in Executive Order No. 080199 dated October 9, 2007, need not be utilized to select the engineer to design the required improvements to be installed by Firethorn under this Agreement. Continued use of Olsson Associates will avoid delay, inefficiencies, lack of coordination, and duplication of effort. Notwithstanding the above, the use of Olsson Associates or any other engineer is subject to the City’s prior approval of the engineer’s scope of services and engineer’s fee.

24. **Recordation.** This Agreement or a memorandum thereof shall be filed in the Office of the Register of Deeds of Lancaster County, Nebraska at Firethorn’s cost and expense.

IN WITNESS WHEREOF, the parties have executed and delivered this Agreement as of the date and year first above written.
