This easement is hereby established by the parties hereto by this instrument and shall be binding upon the heirs, executors, administrators, successors and assigns of the parties hereto and shall further be construed as a covenant running with the land. It is further agreed by and between the parties hereto that the cost of installation, maintenance and repair of each section of the driveway shall be the obligation of the record titleholder of the respective sections as set out above herein and that snow removal within a reasonable time shall be the obligation of each of the parties hereto as to the section to which they or it hold record title, and that each of the parties hereto shall maintain the section to which it or they hold record title in such condition as to permit vehicles to pass safely over same and to facilitate the movement of vehicles over the driveway.

It is further understood and agreed by and between the parties that the first party hereto will use said Joint driveway established hereby as a drive-in facility in its business on the adjoining property owned by it and that neither party will erect any type of structure over the property described herein and that neither party will allow any permanent parking of unattended vehicles in the driveway but that in order to facilitate the services offered by first party in its business, vehicles may stop temporarily to avail themselves of drive-in services necessary to the business of first party. It is further understood and agreed between the parties that neither will block the flow of traffic through the driveway in any way other than the natural flow of traffic through the driveway making use of the drive-in facilities nor will either permit any obstruction of any kind to be placed therein or remain therein should an obstruction occur through inadvertence or accident, each of the parties hereto to supervise the section to which it or they hold title to see that it remains free of any hazard to traffic safety. The easement created by this instrument is restricted to driveway purposes only.

It is further understood and agreed by and between the parties that each of the parties shall suffice as to its or their expense the section of the joint driveway established hereby to which it or they hold record title, with concrete or asphaltic type surfacing material, and that neither shall place any gravel, crushed rock, cinders or similar surfacing materials thereon.

It is further understood and agreed by and between the parties that each of the parties shall surface as its or their expense the section of the joint driveway established hereby to which it or they hold record title, with concrete or asphaltic-type surfacing material, and that neither shall place any gravel, crushed rock, cinders or similar surfacing materials thereon.
