Hi Lee,

Your initial thought was that the gas line easement would be needed but you were going to check with Cathy Gillman. I've attached a drawing PDF showing the gas line location on the Hampton site plan. It runs partly in the drainage easement west of the restaurant but then cut the corner across the parking lot. The gas line was placed in what was Tax Lot 16 owned by Sarpy County at the time and possibly thought of as 126<sup>th</sup> St right-of-way. The gas didn't show on the ALTA survey because Aquila did not mark their line when we requested a one-call locate.
