hereinafter referred to as the Owner and Lancaster County, a governmental subdivision, hereinafter referred to as the County.

WITNESSETH: In consideration of the payment or payments as specified below and the performance of the special provisions contained herein, the Owner hereby grants to the County, temporary easement to certain real estate described by stationing and distances measured from section line as follows:

From Sta. 659+00	to Sta. 662+00	a strip 50 - 60 ft. wide	Left side
From Sta. 662+00	to Sta. 663+00	a strip 60 ft. wide	Left side
From Sta. 663+00	to Sta. 664+00	a strip 60 - 50 ft. wide	Left side

Said temporary easement will be utilized more specifically grading and shaping as shown on the approved plans for Project No. C55-PQ-406 (2), Tract 4, consisting of 0.07 acre, more or less, exclusive of existing statutory easements situated in Lot 26, I.T. of the SE ¼ of Section 36, Township 9 North, Range 7 East, of the 6th Principal Meridian, Lancaster County, Nebraska.

The County agrees to purchase the above described temporary easement and to pay therefore within a reasonable time after the consummation of this contract.

The County shall have immediate right of entry on the premises described above upon payment to the Owner of 100% due under this contract. Payment is to be made by the County to the Owner for the easement area actually acquired, not including present public right-of-way, according to the following rate per acre:

0.07 acre at \$ 8,000.00/acre x 25%		<u>\$ 140.00</u>
	Contract Total	\$ 140.00

The above payments shall cover all damages caused by the establishment and construction of the above project except for crop damage, if any, which will be paid for in the amount based on the yield from the balance of the field less expenses of marketing and harvesting. Crop damage shall mean damage to such crops as are required to be planted and which were planted at the time of the signing of this contract and which are actually damaged due to construction of this project, but in no case shall damage be paid for more than one year's crop. The Owner agrees to make a reasonable attempt to harvest any crop so as to mitigate the crop damage.

The County agrees to seed the areas disturbed by the construction unless other provisions for seeding have been included in the special provisions of this contract.

If the Owner has a properly recorded survey of the property affected, the County agrees to re-establish survey corners destroyed as a result of the construction at no cost to the Owner.

The County agrees to rock the disturbed areas of rock driveways and to place additional rock, if required, for a period of one year from the completion of this project. The Owner must notify the County if additional rock is required.

All damage items that the Owner has been compensated for shall become the property of the County and will be removed and/or disposed of by the County.

Salvage of items given to the Owner as stated in the special provisions of this contract must be accomplished by the start of the construction of this project or the Owner shall forfeit the right to such salvage.

Carol DeBoer

It is further agreed that the interests to areas conveyed temporarily shall be during the period of construction and shall cease upon acceptance of the project by the County or as agreed in the special provisions of this contract.

SPECIAL PROVISIONS

[Handwritten diagonal lines across the special provisions section]

This contract shall be binding on both parties as soon as it is executed by both parties, but should not any of the above real estate be required, this contract shall terminate upon payment of \$10.00 by the County to the Owner, provided the acquisition has not been totally consummated.

The representative of the Lancaster County Engineering Department, in presenting this contract, has given me a copy and has read all of its provisions to the undersigned.
