Protective Covenants, Restrictions & Easements

LOTS 5 THROUGH 10 INCLUSIVE, LOTS ¹³ THROUGH 23 INCLUSIVE, LOTS ²⁶ THROUGH 190 INCLUSIVE, LOTS 291 THROUGH 346 INCLUSIVE, LOTS 352 THROUGH 357 INCLUSIVE, ALL IN MILLARD HIGHLANDS SOUTH II, AND LOTS 370 THROUGH 496 INCLUSIVE, IN MILLARD HIGHLANDS SOUTH II REPLAT, BOTH SUBDIVISIONS IN SARPY COUNTY, NEBRASKA.

This Amendent is made this 26th day of June, 1984 by Pacesetter Homes, Inc., a Nebraska Corporation, which does certify as follows:

I. That the undersigned, Pacesetter Homes, Inc., is the owner of more than sixty (60%) of the above-described lots (hereinafter referred to as "the property"), as required by Section 1 of the Protective Covenants, Restrictions and Easements for said property.

II. That the property was limited in its use pursuant to the Protective Covenants, Restrictions and Easements dated the 30th day of July, 1979, and recorded at Miscellaneous Book 52, Page 647, in the Office of the Register of Deeds of Sarpy County, Nebraska.

III. Said covenants are hereby amended so as to include the following provisions:

A. General Scheme of Development. As a part of the general scheme of development, provision has been made, and the property has been planned, so as to provide adequate access to sunlight and prevent the shading of solar collecting surfaces for the purpose of collection, use and storage of solar energy for domestic hot water heating, space heating, space cooling, and such other uses as may develop in the future.

B. Definitions. As used herein, the following terms shall be defined as follows:

1. SOLAR ENVELOPE. A Solar Envelope is three-dimensional and defines the maximum allowable space which may be utilized by buildings, structures, trees, vegetation or any other object on the lot. Illustrations of Solar Envelopes developed for lots within the property are attached hereto and incorporated herein.

2. SOLAR ACCESS. As used herein, solar access is defined as access to solar energy for solar lots in the property such that not more that 15% of the solar collecting surfaces

located on the south wall and roof of homes on designated solar lots will be shaded on December 21 between the hours of 9:30 AM and 3:00 PM Mean Solar Time.

3. SOLAR LOTS. Those lots within the property for which provisions for solar access have been made.

4. NON-SOLAR LOTS. Those lots within the property for which solar development is not practicable for reasons of placement, topography, or proximity to lots located outside the property. Non-solar lots are, however, restricted by Solar Envelopes.

5. FRONT SETBACK. The minimum horizontal distance between the street line and the front line of the building, as determined by county zoning regulations.

6. SOLAR SETBACK. The maximum horizontal distance from the front curblineline to the south building line (south-facing facade) of the residence as shown in the Solar Envelope illustrations attached hereto and incorporated herein.

C. Solar Lots. The following lots have been designated as solar lots:

- 8, 9, 10, 13, 14, 15, 16, 19, 20, 21, 22, 23, 26, 27, 28, 29, 30, 31, 32, 33, 34,
- 38, 42, 43, 47, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69,
- 70, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 108, 109, 110, 111, 128,
- 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144,
- 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160,
- 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176,
- 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 291, 299,
- 310, 311, 312, 313, 314, 315, 316, 317, 326, 327, 328, 329, 330, 331, 332, 333,
- 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 353, 354, 370,
- 371, 372, 373, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387,
- 388, 389, 390, 391, 392, 393, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404,
- 405, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421,
- 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437,
- 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453,
- 454, 456, 457, 460, 462, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474,
- 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490,
- 491, 492, 493, 494, 495, 496.

Non-solar Lots. The following lots have been designated as non-solar lots:

- 5, 6, 7, 17, 18, 35, 36, 37, 39, 40, 41, 44, 45, 46, 48, 49, 50, 51, 52, 53, 71,
- 72, 73, 74, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 99, 100, 101, 102, 103, 104,
- 105, 106, 107, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124,
- 125, 126, 127, 292, 293, 294, 295, 296, 297, 298, 300, 301, 302, 303, 304, 305,
- 306, 307, 308, 309, 318, 319, 320, 321, 322, 323, 324, 352, 355, 356, 357, 406,
- 455, 458, 459, 461, 463.

D. Provisions for Solar Access.

1. No house, garage, fence, wall, sign, billboard, antenna, pole, or any other structure, or tree, bush, or any other vegetation, or any other object shall be constructed, altered, built, erected, installed, planted, or otherwise maintained or undertaken on any lot (whether designated solar or non-solar) within the property so as to exceed the maximum allowable space designated in the Solar Envelope designed for each lot (which Solar Envelope illustrations are attached hereto and incorporated herein) so as to provide solar access to designated solar lots within the property. Only necessary utility poles are specifically exempted from this provision.

2. No south facade of any residence shall be located so as to exceed the solar setback designated for the lot (as indicated on the Solar Envelope illustrations attached hereto and incorporated herein).

E. Limitation of Liability. While the property has been planned to provide adequate solar access for designated solar lots within the property, this instrument shall not be construed as a guarantee of adequate solar access for any particular lot or as placing any liability or obligation upon the undersigned to provide adequate access to solar energy. Lot owners are hereby cautioned that the burden for assuring adequate solar access for a particular type of solar energy system for a particular lot rests on the owner of that lot to insure that building design and configuration, solar energy system design and placement, vegetation, and all other applicable variables insure adequate solar access.

F. Enforcement. If the owners of any lot or their heirs, successors or assigns shall violate or attempt to violate any of the provisions of the Amendment herein, it shall be lawful for any owner of any lot to bring any legal proceeding against such person violating or attempting to violate such provisions either to prevent him or them from so doing or to recover damages or other compensation due for such violation; but this instrument shall not be construed as placing any liability or obligation for its enforcement upon the undersigned. Invalidation of any one of the provisions by judgment or court order shall in no way affect any of the other provisions, which shall remain in full force and effect.

IV. All other provisions of the Protective Covenants, Restrictions and Easements dated the 30th day of July, 1979, shall remain in full force and effect.

DATED this 26th day of June, 1984.

PACESETTER HOMES, INC.

BY 
Ralph G. Heavrin, President

LOT #5
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 5 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at the intersection of street curb and southwest property line at a height of 16 feet. The envelope roof then slopes down to a height of 11 feet where the street curb and the northeast property line meet and where the Southeast property line and the front setback meet. The envelope roof then drops to a height of 0 feet where the northwest property line and the setback meet. The remainder of the lot has a unlimited height restriction.

LOT #6
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 6 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at the intersection of street curb and southeast property line at a height of 21 feet. The envelope roof then slopes up to a height of 27 feet at the southwest corner of the lot. The envelope roof then drops to a height of 11 feet where the northwest property line and the front setback meet and up to a height of 16 feet where the northeast corner and the street curb meet. The remainder of the lot has a unlimited height restriction.

LOT #7
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 7 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at the intersection of street curb and northwest property line at a height of 21 feet. The envelope roof then slopes up to a height of 27 feet where the northwest property line and the west property line meet. From this point the envelope roof slopes up to the height of 54 feet at the southwest corner of the lot. The envelope roof continues at a height of 54 feet over the south property line until it reaches a point 37 feet from the southwest corner. At this point the envelope roof drops to a height of 44 feet where the solar setback and southeast property line meet. From the solar setback the envelope continues to slope to a height of 27 feet where the southeast property line and the street curb meet and then back to a height of 21 feet where the envelope began. The remainder of the envelope begins a height of 13 feet over the south property line and slopes to a height of 0 where the solar setback and southeast property line meet at a height of 0.

LOT #8
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 8 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 12 feet above the southwest and the southeast corner of the lot and rising to a height of 15 feet above the south property line and 85 feet east of the southwest corner of the lot. From the south property line the envelope slopes down to the solar setback to a height of 0 feet. The envelope rises above the front setback to a height of 44 feet above the west property line and at a height of 46 feet above the east property line. From the solar setback the envelope slopes down to the property line to the height of 26 feet above street curb at the northwest corner of the lot and 20 feet at the northeast corner of the lot.

LOT #9
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 9 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 12 feet above the south property line. From the south property line the envelope slopes down to the solar setback to a height of 0 feet. The envelope rises above the solar setback to a height of 46 feet above the west property line and at a height of 37 feet above the east property line. From the solar setback the envelope slopes down to the height of 20 feet above street curb at the northwest corner of the lot and slopes down to a height of 17 feet at a point where the curved and strait portion of the street curb meet and remains at a height of 17 feet over the remainder of the street curb.

LOT #10
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 10 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 12 feet above the southwest lot corner and a height of 16 feet above the southeast lot corner. From the south property line the envelope slopes down to the solar setback at a height of 0 feet. The envelope over the solar setback rises to height of 37. From the solar setback the envelope slopes down to a point 17 feet over the intersection of the west property line and the street curb, and down to a height of 16 feet at the intersection of the east property line and the street curb.

LOT #13

NO SCALE

MILLARD HIGHLAND SOUTH II

Lot # 13 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 10 feet above the street curb. From the street curb the envelope slopes down to a height of 0 feet at the front setback. From the front setback the envelope rises to a height of 40 feet above the west property line and to a height of 43 feet above the east property line. The envelope then slopes down to a height of 14 feet at the northeast corner of the lot and to a height of 15 feet above the northeast corner of the lot.

LOT #14

NO SCALE

MILLARD HIGHLAND SOUTH II

Lot # 14 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 11 feet above the street curb at the southwest corner of the lot and at a height of 10 feet at the southeast corner of the lot. From the street curb the envelope slopes down to a height of 0 feet at the front setback. From the front setback the envelope rises to a height of 42 feet above the west property line and to a height of 40 feet above the east property line. The envelope then slopes down to a height of 10 feet at the northeast corner of the lot and to a height of 14 feet above the northeast corner of the lot.

LOT #15

NO SCALE

MILLARD HIGHLAND SOUTH II

Lot # 15 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 14 feet above the street curb at the southwest corner of the lot and at a height of 11 feet at the southeast corner of the lot. From the street curb the envelope slopes down to a height of 0 feet at the front setback. Above the solar setback the envelope rises to a height of 44 feet at the west property line and at a height of 42 feet at the east property line. From the solar setback the envelope drops to a height of 15 feet above the northeast corner of the lot and to a height of 10 feet at the northwest corner of the lot.

LOT #16

NO SCALE

MILLARD HIGHLAND SOUTH II

Lot # 16 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 11 feet above the street curb at the southwest corner of the lot and at a height of 14 feet at the southeast corner of the lot. From the street curb the envelope slopes down to a height of 0 feet at the front setback. Above the front setback the envelope rises to a height of 48 feet at the west property line and at a height of 44 feet at the east property line. From the front setback the envelope drops to a height of 15 feet above the northeast corner of the lot and to a height of 14 feet at the northwest corner of the lot.

LOT #17

NO SCALE

MILLARD HIGHLAND SOUTH II

Lot # 17 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at the northwest corner of the lot at a height of 54 feet, forming a triangular envelope roof that runs 37 feet along the west property line and over to a point 37 feet east of the north property line. The remainder of the envelope over the north property line has a height of 13 feet which then slopes up to a height of 48 feet where the northeast property line and the solar setback meet and over to a height of 56 feet, 48 feet from the street curb along the south property. From this point the envelope roof slopes down to a height of 54 feet at the southwest corner of the lot. The envelope roof continues to slope down to a height of 18 feet over the west property line until it reaches a point 37 feet from the northwest corner and back to the north property line at a height of 13 feet. The remainder of the envelope begins a height of 16 feet over where the street curb meets the south property line and slopes to a height of 11 feet where the street curb meets the northwest property line. From the street curb the envelope slopes down to a height of 7 feet, 48 feet from the street curb along the south property line and to a height of 0 where the solar setback and northeast property line meet.

LOT #18

NO SCALE

MILLARD HIGHLAND SOUTH II

Lot # 18 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at the northwest corner of the lot at a height of 36 feet, forming a triangular envelope roof that slopes to a height of 64 feet at a point 68 feet from the northwest corner along the southwest property line and back down to a height of 56 feet at a point 48 feet from the street curb along the north property line and back to the northwest corner. The remainder of the envelope slopes from the southwest corner at a height of 46 feet to a height of 40 feet where the solar setback and the southeast property line meet and down to a height of 34 feet over the southwest property line at a point 37 feet from the southwest lot corner. From this point the envelope roof slopes down to a height of 17 feet over the southwest property line at a point 68 feet from the northwest corner. The envelope then slopes to a height of 7 feet over the north property line at a point 48 feet from the street curb. The envelope then slopes up to a height of 16 feet where the northwest property line meets the street curb and to a height of 27 feet where the street curb and the southeast property line meet. The envelope continues to slope up over the southeast property line to a height of 40 feet where the southeast property line and the solar setback meet.

LOT #19
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 19 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 36 feet above the intersection of the east property line and the southeast property line. From this point the envelope slopes down to a height of 28 feet above the intersection of the southeast and southwest property line and down to a height of 7 feet above the intersection of the southwest and the northwest property line. From these heights over the property line the envelope slopes down to the solar setback to a height of 0 feet. The envelope rises above the solar setback to a height of 40 above the northeast property line and to a height of 53 feet over the east property line. From the solar setback the envelope slopes down to a height of 27 feet above the street curb at the northwest corner of the lot and at a height of 33 feet above the northeast corner of the lot.

LOT #20
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 20 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 36 feet above the intersection of the west property line and the northeast property line. From this point the envelope slopes down to a height of 12 feet above the intersection of the southeast and east property line. From these heights over the southeast property line the envelope slopes down to the solar setback to a height of 0 feet. The envelope rises above the solar setback to a height of 53 above the northeast property line and to a height of 52 feet over the east property line. From the solar setback the envelope slopes down to a height of 33 feet above the street curb at the northwest corner of the lot and at a height of 12 feet above the northeast corner of the lot.

LOT #21
NO SCALE
MILLARD HIGHLAND SOUTH II

Lot # 21 of the Millard Highland South II Subdivision has a solar envelope that can be defined as beginning at a height of 12 feet above the south property line at the southwest corner of the lot and at a height of 13 feet at the southeast corner of the lot. From the south property line the envelope slopes down to a height of 0 at the solar setback. Above the solar setback the envelope rises to a height of 52 feet at the west property line and at a height of 40 feet at the east property line. From the solar setback the envelope drops to a height of 28 feet at the street curb at the northwest corner of the lot and at a height of 22 feet where the curved and the straight portions of the street curb meet and at a height of 7 feet at the northwest corner of the lot.

LOT #22
